## Moving to Ohio Farm

Arretas Johnson of 1060 Twelfth street, has returned home from Niles, Ohio, where he spent several days last week attending a big farm sale and looking after business matters. Mr. Johnson has bought a poultry and truck farm of about 30 acres four miles out of Niles and expects to move his family thereto about March 29th. Mr and Mrs. Johnson will have a fine country place and a good market for his produce and fruit. Their Monessen friends wish them success in their new home.

## IN COURT

George Valo of East Charleroi, was the first prisoner before the burgess this morning. He was charged with drunkenness, being taken from a street car Saturday night on account of acting disorderly. He was carrying a gun when arrested, but said that at one time he had been held up and therefore carried the gun for protection. The burgess fined him $3.00 and costs or $5.00 for being drunk and disorderly. He paid and evidently thought his troubles were over, but his joy was short lived, as he suddenly found that the law frowned on gun toting. He was arrested on that charge by Constable A. J. Smith, and will have a hearing on that charge some time today.

George Bow of Brownsville, was charged with being drunk and carrying a gun. He was fined $3.00 and costs on the first charge before the burgess. Constable A. J. Smith arrested him on the latter charge and

# MONESSEN FOLK HAVE A COMMON INTEREST

The petitioners for a change of government have produced absolutely no arguments that should convince the voters to cast a ballot in favor of their cause. In fact it has been positively stated that thirty five of the men who signed the paper to place the question before the voters, have declared their intentions of voting against it. If the men who signed the paper will not support a cause for which they petitioned, it has very little chance of carrying. Since signing the paper, they have studied the Clark bill and have finally concluded that to inflict a high tax government upon Monessen with its 15,000 population, they would be doing themselves and the town a great injustice.

The merchants are against the Third class city. They have all the taxes they can stand and many of them have been hard hit by the recent panic. They won't stand for the possibility of an extra $100 a year. The laboring man will go to the polls and vote against it, for he knows full well that to shoot up the taxes, the rents will have to go up in proportion, and the laboring man pays the bulk of the rent. It is to his interest to vote against the Third class city.

The argument is all on one side. Figures won't lie. Study this little problem and it is only one that confronts us at this time. If a man who owns a home for which he paid $2,500 is assessed under the borough or present form of government at $1,000 his borough taxes will be approximately $11.00 a year, or his entire tax including state and county tax $27.50. If the change to a Third class city comes, his valuation according to the Clark bill will be $2,000, just double for the law says the assessment shall be what the property would bring at a fair auction sale His tax then could be ten mills for current expenses, ten mills for improvements and two additional mills permissible for any emergency with a possibility of seven mills by a vote of the people for public improvements It would be possible to have the tax on this little $2,500 home, $25.00 for borough purposes alone, and with the school and county taxes, the amount would run up to $90.00 a year. Suppose the owner has a little store, a barber shop or pool room down town, and the city by ordinance legislates to tax every merchant in the town $100 additional. What will become of the little business man? He will have to close his store and quit, for the burden would soon become too great.

These are figures that will be made possible should the voters elect to become a third class city

When Solicitor Carl Gibson of Monongahela, stated that under the Clark bill, the five men elected to serve are given unlimited power to pass laws burdening the people as they please, and that there is no legal recourse, he spoke the truth. This one illustration is sufficient to demonstrate what such a government would do to Monessen.

Great encomiums have been published and distributed about town in an effort to sway public sentiment in favor of the city. But remember that the Clark bill was passed by the legislature and signed by the governor in July, 1913, and it is only a state law. No town has yet given it a fair trial and the few towns that voted in favor of the city law have given out no report. Most towns defeated it and since it went down by such big majorities there has been no discussion in its favor. The letters that were published in an effort to convince the voters it is a good thing, were written by borough clerks in

## A Very Queer Egg

While dressing chickens Saturday for his market, E. Drummond, of Greensburg, got a very large egg from one of the hens. It was thought to be a double yoked egg, but on investigation it was found that there was one perfect egg inside the other. Twenty three Rhode Island hens were killed and from the lot, counting the double egg, 24 eggs were gotten.

## POINTERS

The Mayor of Lock Haven confesses that he has been in office for twelve years and that he was elected mayor of the town after being "the one to install the commission form of government." Of course he would naturally think it a pretty good thing. If he made the fight and won for Third class city, he could easily see an opportunity of becoming mayor, and he simply took advantage of an opportunity and now he is big chief in the town and as Solicitor Gibson says "with almost unlimited power."

* * *

If we wipe out the ward divisions in Monessen, might it not be possible that the mayor and the four councilmen would be selected from the business section of the town? In this event would the interest of the people in the outlying districts be conserved or would they be at the mercy of the "unlimited powers that be?" As it is the people of the Third ward or the First ward have an equal chance with those of the Second ward to get a share of the improvements under consideration. Voters of the outlying districts should think along this line.

* * *

"Had I known that the assessor in the Second ward would have soaked my valuations nearly double that of my neighbors, and had I known of the agitation to shoot our taxes sky high by creating a Third class city, I would not have spent $25,000 in improvements in Monessen the past year."

Above is the sentiment of one of our property owners. It is a true statement word for word as spoken and it reflects the feeling of more than one person who has invested in Monessen property. There is a desire on the part of some people to inflict penalties on others. Under the borough laws property owners have a recourse. They can appeal to the county commissioners. But under the Third class city, assessments made within the borough stand as made and the property owner has no appeal to higher authority. Who will be the assessor if we have a Third class city? Think about it What will be the attitude toward the property owner?

## QUERY

If you elect to become a Third class city under the Clark bill and hire councilmen at the minimum provided by law, it will be impossible to get competent men to act. No man that is competent will dedicate his services for $250 a year. That is common sense and reason.

If we elect a man at the maximum salary which is $3,000 a year, we are inflicting a burden upon the taxpayers. Pittsburgh pays its councilmen $6,000 a year. At the maximum salary, Monessen would pay out in councilmanic salaries, $12,000 a year. Then the councilman ismerely a director of a department, and he has power under the law to fix salaries for his department, to hire and discharge help. What greater temptation could you provide for building up a powerful political machine in Monessen with authority above the courts. In the face of these facts, do you want a Third class city?

**THE STUDENT AND WORK**

**Boys**, suppose that by feeding the **chickens**, scrubbing the back porch or **carrying** in the day's supply of coal, **you** could increase your per centage in **school**—would that appeal to you?

**Girls**, imagine making the beds, **washing** the dishes or dusting the fur**niture** as a means of attaining higher **averages**—would you like the idea?

The superintendent of Harrisburg **schools** has such a plan. Credit will **be** given in school for work done at **home.**

**The** idea is to encourage the child**ren** to do practical work. Perhaps **the** lesson thus learned would be of **value**, bue we rather believe that the **average** boy or girl has enough to do **in** performing the school duties.

**Furthermore**, it is our opinion that **the** parent who crowds home work up**on** the boy or girl too heavily is mak**ing** a mistake.

Let them have practical education, of course. But remember that all **work** and no play makes Jack a dull **boy.**

**No** boy or girl will be harmed by a **brief** time to "loaf", to read an amus**ing** book, or see an occasional moving **picture** show.

While realizing that this doctrine **will** meet with opposition, that is the **way** we view movements which have a **tendency** to make the boy or girl a **mere** working machine, with every **hour** turned into a grinding system to **be** written in merciless black and **white** at the end of the month.

**A few** of the home chores done by **the boy** or girl can work no real **harm**, but let parents be careful and **guard** ovetaxing the child while in **school.**

**Mayor** Harrison of Chicago, is cer**tainly** an observing man. He makes **the** public statement that the average **woman** of the windy city wears less **clothing** than the dancer in the public **halls.** Evidently he has paid numer**ous visits** to the dance halls, to be so **well** posted.

**The** nation should applaud the pro**motion** of Colonel Goethals to be a **Major**-general in the army and a Brig**adier**-General in the Medical Corps. **He** is deserving of all honors for his **wonderful** work on the Panama Canal.

**Spring** arrived yesterday according **to** schedule, and now it will be only a **few** days more until we will be getting **out** that last year's straw hat or **spending** two bucks for a new one.

## DEBATE TO-NIGHT

**This** Monday evening is the time for **the** great debate on "The Third Class **City"** to be pulled off by the Wayman **Literary** society in the A. M. E. church **on** Reed avenue, and a full house is an **assured** fact, as none who are inter**ested** in this question of such vital im**portance** to Monessen at this time **should** miss a chance to hear both **sides** brought out by able speakers.

In favor of the making of a third **class** city will be Julius Smith, Alex **Pangburn** and Edward Carter, while **arraigned** against it will be Amos Lu**cas**, Wm. Taylor and Moses King.

Tuesday this question goes to the **people** of Monessen to be voted on—**yes** or no—and this debate coming as **it does** just the night before, it will **surely** be a good opportunity to learn **facts**, not on one side alone, but on **both** sides.

**There** are good talkers on both **sides** and an especial effort will be **made** to select fair and impartial **judges.**

**This** will not be wholly a literary **number**, as it will be more educa**tional**, and in order to lead to a sensi**ble**, practical determination as to what **might be the best for Monessen in the future**, every voter should turn out.

## TOLD IN MONESSEN

**A Resident Known to all our Readers Relates an Experience**

**Readers** of the Independent have **been** told again and again of the mer**its** of that reliable, time-proven kid**ney** remedy—Doan's Kidney Pills. **The** experiences told are not those of **unknown** persons, living far away. **The** cases are Monessen cases, told by **Monessen** people.

**Mrs. R. Gilmore**, 102½ First street, **Monessen**, says: "I suffered for years **from** a lame back, and often when I **stooped**, the misery was so intense **that** I cried aloud. If I moved sud**denly**, it seemed as if something snapped **in** my back. When I exerted myself **in** sweeping or doing housework, the **pain** was unbearable. I felt tired and **listless** all the time and my head **ached.** My eyes were affected and I **was** all worn out. I consulted sev**eral** doctors, but none of them seemed to **do** me any good, and finally I began **taking** Doan's Kidney Pills. Christ told Steve to let him alone and that he would take him out. Steve became angered and swore and then the trouble began. Steve was fined $5 and costs or $7.00, which he paid, while Christ was discharged.

Kosto Aposots of Schoonmaker avenue, Kosto Agolis and Steve Potaski were arrested Saturday evening. The three men with one other who made his get away were fighting at the corner of Fourth and Schoonmaker where a large crowd of people were watching the scrap. The police were summoned and put a stop to the trouble. Kosto Agolis was fined $5.00 and costs or $7.00 which he paid, and Kosto Apostos' fine was $10.00 and costs or $12.00. He also paid. ## Evangelistic Meetings

The evangelistic meetings at the Presbyterian church began last evening with Rev. C O. Bemies of McClellandtown, delivering a strong sermon on the "power of God" in the affairs of humanity. The evangelist was greeted by a large and enthusiastic audience that responded to the visiting pastor's efforts. Rev. Bemies is an exceptionally strong Gospel preacher, and presents the truth in a forceful manner. His robust, strong manhood permeates his sermons and carires to his hearers the power of conviction. The intense earnestness of the man cannot be questioned by any who hear him. The meetings begin each night at 7:30 with a live song and prayer service. The pastor and congregation are looking forward expectant of a deepening of the spiritual life of the membership. A cordial invitation is extended to the general public to avail themselves of the privileges offered in these special meetings.

Imagination balks at the magnitude of $2,000,000. Only when it is translated into terms of purchasing power does it become comprehensible.

Two million dollars, for example, will support more than 2000 families of moderate income for a year.

Two million dollars will buy more than 200,000 barrels of flour, more than 50,000 sewing machines or 80,000 suits. It will give work for an entire year to 2000 men and women engaged in various productive industries and other occupations that add to the common welfare of the people in all walks of life.

It is $2,000,000 a year that the Full Crew—"excess man crew"—Laws compel the railroads of your States to pay in unearned wages. Laws deprive you of improvements for safety and comfort in travel that this money, now used unproductively, would provide.

How much longer in these times when economy is a universal necessity are you willing to endure this tremendous waste? In the end the cost bears upon you, either in increased rates or decreased service.

Will you use your influence in urging that the people's elected Representatives at Trenton and Harrisburg work and vote for repeal of the Full Crew Laws and place control of the proper manning of trains in the hands of the Public Service Commissioners?

ARTICLE 5. SECTION 2:

**Exact Quotation from the Clark Bill**

## Monessen Folk Have A Common Interest

(continued from first page)

other states that have high salaried jobs under the machine denomination and their satisfaction of the way the city is being run, does not give an insight into the minds of the people.

Congratulations have been extended to the councilmen for voting in favor of the resolution to give the people a chance to vote on the question, but their official act should not be construed to be their position on the question. At least a majoriy of the councilmen are against the Third class city and have so expressed themselves publicly and privately. They think it was far from being a wise time to submit the question. They voted in favor of the resolution because the Clark bill signifies that upon the petition of 100 or more citizens the council must vote in favor of a resolution to submit the question to the people. Their duty was made plain in the law and as law abiding citizens and wishing to administer the affairs of the people in a legal manner, they carried out the provisions of the bill. But for this act they deserve no special public comment.

Tomorrow between the hours of 7 a. m. and 7 p m. the voters will have an opportunity of registering their approval or protest. Those who favor the change will go to the polls and while the preponderance of sentiment is rigidly against the Third class city, all who oppose it should go to the polls and vote. Don't take it for granted that it will be defeated anyway, for many a time a whole government is changed on account of indifference. Every voter has an interest in Monessen, its future, its stability and its prosperity and he should do his duty tomorrow.

## Spring is With Us

Yesterday was the time for the annual equinox, or the day marking the sun's crossing the line, thus ending winter and beginning spring. According to time honored tradition at this time is due the equinoxal storm which is due either the day before or the day after the sun crosses the line. Hence as we did not have that storm Saturday it can be looked for today or within a few days at any rate as this change of the season's very seldom if ever passes without a disturbance in weather conditions.

As spring has now made her bow, Mr. Groundhog is forced to relinquish his tenacious hold and give way to milder warmer and more agreeable weather.

## The Clark Lecture

The Baptist church was filled yesterday on account of the lecture given by Detective Clark of Pittsburgh, who spoke for the second time in Monessen in connection with his work as detective in Allegheny county.

Detective Clark is most entertaining. his talk being especially in refence to the training of boys and girls so that they will be a credit to their parents, themselves and the community in which they live. He also referred pointedly to the great possibilities before the churches of Monessen for doing a good work among the foreign population.

His remarks were very plain, practical and to the point.

Detective Clark is a very busy man and especially is he deeply interested in his work in helping the young and reclaiming those who have started on the wrong road. His whole heart is in the work and every minuate he has aside from his regular official duties is devoted to this uplift work.

Some months ago he made his first visit to Monessen and was heartily received, but yesterday the church was crowded to hear his most entertaining talk on a work which all are or should be interested in, and in which he is accomplishing much good.

At any time Detective Clark comes to Monessen, he will be accorded a hearty reception.
